IBM Connections V4.0 Announcement
IBM Corp. | 18 hours ago | Business - Social Business
IBM Connections V4.0 is social software for business that provides an exceptional social platform that helps enable you to access the right people and internal and external content in your professional networks and communities.

Custom Homepage & Content Management for IBM Connections
TIMETOACT GROUP | 2 days ago | Business - Social Business
IBM Connections is great for personal and informal exchange of ideas and information. It has got Activity stream, Blogs, Bookmarks, Wikis and much more. For an Intranet homepage it misses more formal Web Content Management functionalities like an conventional navigation, managed news etc. Learn how you can have both, informal and formal Intranet with just one application.

IBM Connect 2013, now with more Lotusphere; registration open!
Ed Brill | 13 hours ago | Community - Events
Earlier today, IBM officially kicked off awareness and registration for the Connect 2013, January 27-31 in Orlando, Florida, USA. Connect is not a new name or conference, but rather an expansion of mission and scope for the Lotusphere events of the past two decades.

Types of Moderators

- There are three types of moderators
 - ▶ Category moderators
 - Each moderator can moderate 1 – N categories of content
 - Check the left navigator for a list of categories (example: social business)
 - Category moderators do not moderate the "featured" section
 - These news entries show up in the recent stream and the different category streams
 - ▶ Spotlight moderators
 - Spotlight moderators can define which news entries to display at the top of the home page
 - Spotlight articles remain visible for 1 – 2 weeks
 - ▶ Top stories moderators
 - Top stories moderators can define which news entries show up on the home page in the different sections
 - There are sections for featured, business, app dev, infrastructure, user experience and community
 - Top stories remain visible for 1 – 3 days

Responsibilities of all Moderators

- Moderators need to add content on a regular basis and need to be able to dedicate time
- Moderators can use the bookmarklet to easily add URLs to Collaboration Today (watch the video: <http://www.youtube.com/watch?v=PYzZT-UgreA>)
- Authors
 - ▶ News entries have to have an author
 - ▶ If the author hasn't been defined yet, moderators need to add him/her
 - Authors pictures must not be bigger than 10kb and need to have a minimal size of 64x64 px
- Title
 - ▶ Titles should not repeat author names or include blog names
- Abstracts
 - ▶ Abstracts shouldn't be longer than 2 – 4 sentences
- Entries need to be categorized

Responsibilities of Spotlight and Top Stories Moderators

- Spotlight moderators
 - ▶ Need to create high quality images
 - 260x180 px
 - png or jpg
 - As small as possible
 - ▶ Need to change spotlight section regularly
- Top stories moderators
 - ▶ Need to change top stories on the home page regularly
 - ▶ Need to balance entries (e.g. not only four XPages entries under app dev)

Content

- Only IBM Collaboration Solutions related content can be added
- Only high quality content can be added
 - ▶ Moderators of specific categories define whether content is high quality content
- The following content must NOT be added
 - ▶ Non-English articles
 - ▶ Blog entries about non-business related topics
 - ▶ News about competitive products
 - Unless compared fair/objectively with ICS products (e.g. by analysts)
- Handling of duplicates
 - ▶ Content that is older can be added, but only if there isn't already a news entry
 - ▶ If people blog links to other sites, only the sites should be added
 - Unless people write additional information or opinions
- Handling of news entries about commercial offerings
 - ▶ News entries covering commercial offerings are only allowed if relevant to ICS professionals, e.g. products announcements
 - ▶ Pure self promoting news are not allowed to be put on Collaboration Today

How to become a Moderator

- Contact OpenNTF or use the contact page <http://collaborationtoday.info/contact.xsp>
- Tell us what type of moderator you want to be and for which categories
- After OpenNTF has assigned access you'll be able to access the moderation pages using your OpenNTF credentials
 - ▶ Log in: <http://collaborationtoday.info/login>
